

EMRE KAÇAR

Computer Engineer

📍 Ankara, Turkey  [linkedin.com/in/emre-kacarr](https://www.linkedin.com/in/emre-kacarr)  github.com/emrkacar2  www.emrekacar.com

PROFESSIONAL SUMMARY

Computer Engineering student with a strong foundation in backend development, specializing in Laravel and Java. Proven experience in building secure authentication systems and managing database architectures. Passionate about software craftsmanship, I combine technical expertise with problem-solving skills to deliver scalable web solutions.

TECHNICAL SKILLS

Backend Development

Laravel, PHP, Java, C# .NET, Node.js, REST APIs

Database & Data

MySQL, Oracle SQL, PL/SQL, Database Design, ETL

Frontend & Tools

HTML5, CSS3, JavaScript, Git, Docker, MVC

EXPERIENCE

Jeetwork

4 Months

Software Developer Intern

- Developed secure login and registration pages using Laravel, PHP, and Blade templates, implementing industry-standard security practices.
- Implemented complete authentication workflows, including 'forgot password' and password reset functionalities, ensuring seamless user recovery options.
- Engineered robust server-side form validation and global error handling mechanisms to improve data integrity and user experience.
- Managed authentication middleware and session configurations to maintain secure application state across user sessions.
- Optimized MySQL database queries and schemas within an MVC architecture to enhance application performance.

WGUARD

60 Days

System Engineer Intern

- Analyzed system architectures and implemented monitoring tools to ensure high availability and reliability.
- Troubleshoot complex network and software issues in collaboration with cross-functional engineering teams.

AB Industries / Alapala Makine

20 Days

Software Intern

- Developed a C# MVC web application implementing full CRUD operations, gaining hands-on experience with the .NET ecosystem.
- Participated in the complete Software Development Life Cycle (SDLC) from requirements gathering to deployment.

Elsify Yazılım Bilgi Teknolojileri

20 Days

Software Intern

- Contributed to Java-based backend microservices, focusing on clean code and object-oriented programming principles.
- Performed unit testing and code reviews to ensure software quality and maintainability.

Sisoft Healthcare Information Systems

March 2025 - Present

Business Analyst

- Facilitating large-scale data migration from legacy hospital systems to modern infrastructure using Oracle SQL and PL/SQL.
- Executing complex ETL (Extract, Transform, Load) operations, ensuring 100% data accuracy during critical transfers.
- Providing go-live support and troubleshooting software migration issues, optimizing SQL query performance through index analysis.

EDUCATION

Gaziosmanpaşa University

2020 - 2024

B.S. Computer Engineering

Bandırma Onyedi Eylül University

2019 - 2020

Computer Engineering (Transfer)

KEY ATTRIBUTES

Quick Adaptation

Strong Leadership

Stress Management

Analytical Thinking

Team Collaboration

LANGUAGES

Turkish (Native)

English (Professional Working Proficiency)
